HD360 DECORATION

HD360 Decoration

Bring your brand to life with HD360, where every detail is a brushstroke of brilliance. This groundbreaking process isn't just about imprinting; it's a symphony of colors dancing on the canvas of your drinkware. HD360 transforms ordinary drinkware into a gallery of vibrant hues.

Our revolutionary process ensures that within a quarter-inch, your drinkware comes to life with a full-color, high-definition wrapped imprint. A high-gloss lacquer is applied as a finishing step, making for an exquisite branding presentation.

PEN INK QUALITY

PEN INK QUALITY
PEN INK QUALITY

Gel Ink

Our gel ink is water-based and glides effortlessly across the paper. Gel ink is thick and opaque so it shows up more clearly on dark or slick surfaces. It is useful for any type of writing or illustration where a ballpoint may fall short.

Hybrid Ink

Our hybrid ink combines ballpoint and gel inks for an exceptionally smooth writing experience. With higher ink flow and a premium tip design, our pens deliver quick-drying ink that resists smudging, withstands low temperatures and won't bleed through the paper.

Anti-Fraud Ink

Our anti-fraud ink meets ISO 12757-2 standards, resisting UV fading, water, eraser, ethanol, bleaching, hydrochloric acid, and ammonium hydroxide. It effectively traps within paper fibers, preventing check washing, document fraud, and alterations.
